2.4 Refund Reasons, Payouts, and Return Shipping Allocations
2.4.1 damaged: The item arrived damaged and was reported, accompanied by a photographic proof, within the category's defect claim period. For Groceries, the refund is processed on the photo without requiring a physical return. Refund: 100% of the amount paid. Return shipping: Paid by Kartway.
2.4.2 wrong_item: A different item from the one ordered was delivered. Refund: 100% of the amount paid. Return shipping: Paid by Kartway.
2.4.3 quality: The item is defective or not as described. Refund: 100% of the amount paid. Return shipping: Paid by Kartway.
2.4.4 not_delivered: The parcel was declared lost in transit, or a delivery dispute was upheld by the logistics team. There is nothing to return. Refund: 100% of the amount paid.
2.4.5 late_delivery: The order arrived after the promised delivery date and the customer refuses delivery or returns the item upon receipt. A customer who keeps the order receives the delay credit instead of a return. Refund: 100% of the amount paid. Return shipping: Paid by Kartway.
2.4.6 changed_mind: The customer no longer wants the item. Returns under this reason are accepted only inside the category's specified return window. Return shipping: Paid for by the customer through the deduction of the pickup fee.

fulfillment center. There is nothing to return. Refund: 100% of the amount paid.
